

Starbucks

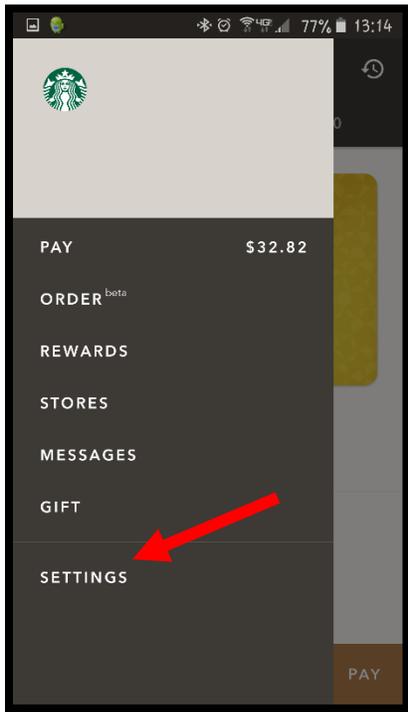

Starbucks App on Android 6.0.1

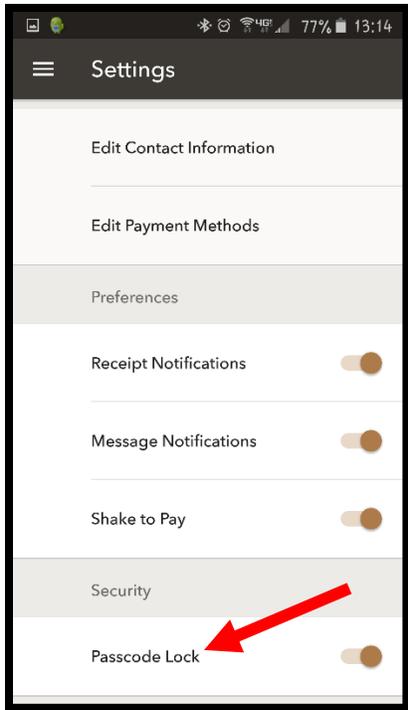

From your screen, click on the “Starbucks” app.

Click on the three lines icon.

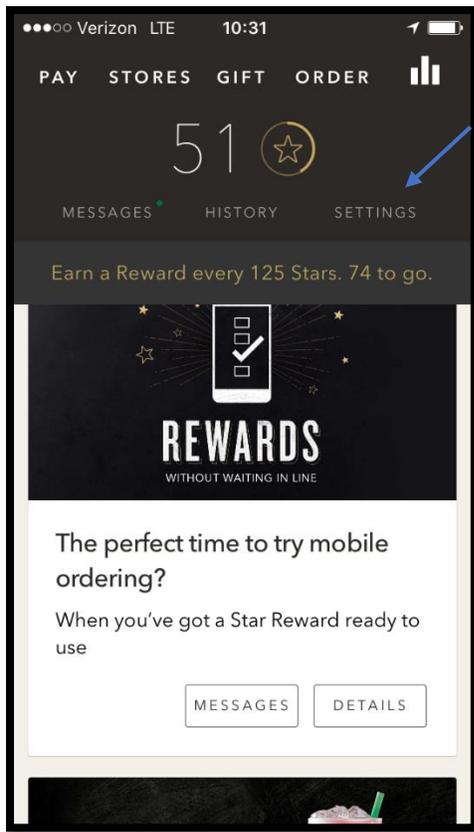

Click on "Settings" in the drop-down menu.

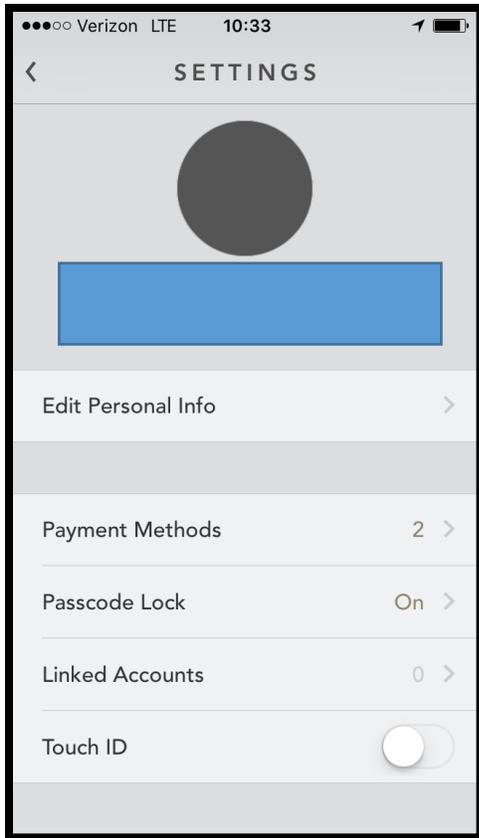

Scroll down to Security and turn on “Passcode Lock”. The app will then walk you through the process of creating a pin to secure your Starbucks app. Once you enable “Passcode Lock”, you will be required to unlock the app with a 4-digit pin every time you wish to open the app.

iPhone

In your Starbucks App, Select “Settings” under your star rewards.

- Under your settings, select “Passcode Lock”. This will lead you through the steps of setting a passcode to your account.
- Under “Linked Accounts”, it is recommended that you do not link any other accounts to your Starbucks application.
- It is recommended that you do not utilize Touch ID or associate your fingerprints with your SmartPhone.
