Search Engine Opt-Out

Google

www.google.com/webmasters/tools/removals

While conducting a “Self Assessment” (see the Self Assessment card) you may find Google Search Results (websites) that you wish to remove. It is important to note that a “Search Result” cannot be removed so long as the information and URL remain active on the original Webmaster’s page. In order to remove your information from Google, you must first contact the Webmaster where the information resides and ask that it be removed. Once you obtain confirmation that the information has been removed, you can then “Request Removal” from Google. Find the URL associated with the “Search Result” you wish to remove and paste the URL in the “Request Removal” box (see URL above and picture to the right). On the “Search Console” page, you can also track your requests to determine if Google has accepted the removal request.

Google Analytics Opt-Out

<https://tools.google.com/dlpage/gaoptout>

To provide website visitors the ability to prevent their data from being used by Google Analytics, Google has developed the Google Analytics opt-out browser add-on for the Google Analytics JavaScript (ga.js, analytics.js, dc.js.). If you want to opt out, download and install the add-on for your web browser. The Google Analytics opt-out add-on is designed to be compatible with Chrome, Internet Explorer 11, Safari, Firefox, and Opera. In order to function, the opt-out add-on must be able to load and execute properly on your browser. For Internet Explorer, 3rd-party cookies must be enabled.

Available for Google Chrome, Mozilla Firefox, Apple Safari and Microsoft Edge.

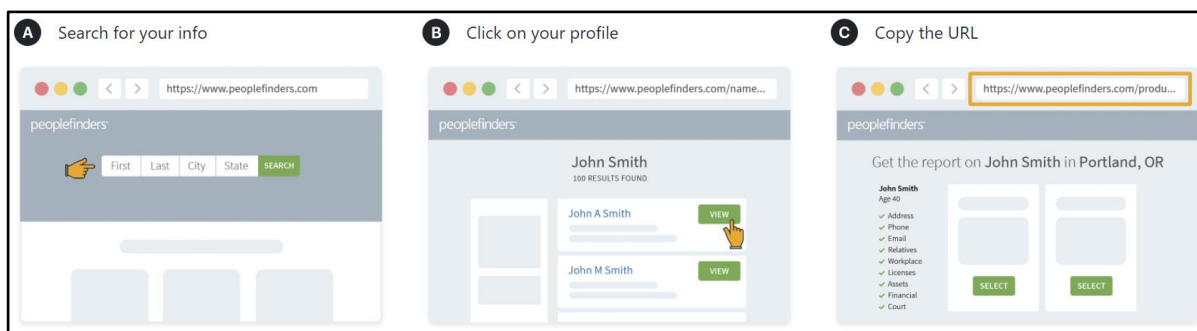

People Finders Opt-Out

<https://www.peoplefinders.com/manage>

Upon request, People Finders can block the records they have control over in their database from being shown on PeopleFinders.com. Unless otherwise required by law, they will only accept opt-out requests directly from the individual whose information is being opted out and they reserve the right to require verification of identity and reject opt-out requests in their sole discretion. Of note, they may not be able to remove any information about you from databases operated by third parties.

They do not accept opt-out requests via fax or mail. They are not obligated by law to block the records they have control over in their database from being shown on PeopleFinders.com. Despite this, they will endeavor to comply with any such requests to block the records they have control over as described above.

Please note, People Finders and similar organizations have no control over public records, and People Finders does not guarantee or warrant that a request for removal of or change to personal information as described above will result in removal of or change to all of your information from their website. Further, they are not responsible for informing third-parties with whom they have already shared your personal information of any changes. Just because PeopleFinders.com is associated with a separate aggregator does not mean they will contact that aggregator on your behalf to remove your information; you must do this yourself.

Been Verified Opt-Out

<https://www.beenverified.com/app/optout/search>

Been Verified provides a quick and easy process to allow you to remove your information from their People Search results. Using the above link, you can search their database, select your record, and verify your request to opt out by clicking on the link in their verification email. After you verify, they will send you an email confirming that the record you selected has been opted out and will instruct their data partners not to return the record in future People Search results.

Been Verified uses your email address to send you an email to verify your request to opt out. They will not sell the email address that you provide as part of the opt-out process, or use it for any other purpose without your prior consent. There is no charge to remove your data from the Been Verified People Search results. Once you receive their email confirming that they have processed your opt-out request, your request will be reflected in their People Search results the next time their server refreshes. In most cases, this will take 24 hours to take effect and then they encourage you to check for yourself.

At this time, they only provide an opt-out for their People Search service. Therefore, it is possible that your name will appear in search results for the other search services available through Been Verified even after you opt out of People Search.

There may be times when one of their data partners provides a new record that is different enough from your existing, opted-out record that they cannot match this new record to the existing opted-out record and will create a new one. If you have previously opted out and see a new record about you appear in their People Search results, contact them at privacy@beenverified.com and they will help you remove that record, as well. It is important to occasionally check Been Verified to ensure the opt-out process is continuing.
