

- **Do** use caution when sharing Gameplay when messages, video, audio, and personal data may be available to other users participating in your game experience.
- **Do** select “Friends Only” for all available settings options. Ensure family members take similar precautions with their accounts. Their privacy and share settings can expose your personal data.
- **Do** use parental controls to restrict access to questionable content and features for children using the Xbox.
- **Don't** forget to update your Xbox system to the latest version of the system software.
- **Don't** use pictures of yourself for your profile photos. Instead, use avatars or photos of something else. Profile photos are potentially viewable to other users and the public depending on your privacy settings.
- **Don't** discard or transfer ownership of your Xbox without setting it back to factory mode and erasing the system data.
- **Don't** establish connections with individuals you do not know and trust. Understand that not everyone is who they say they are.

## Settings

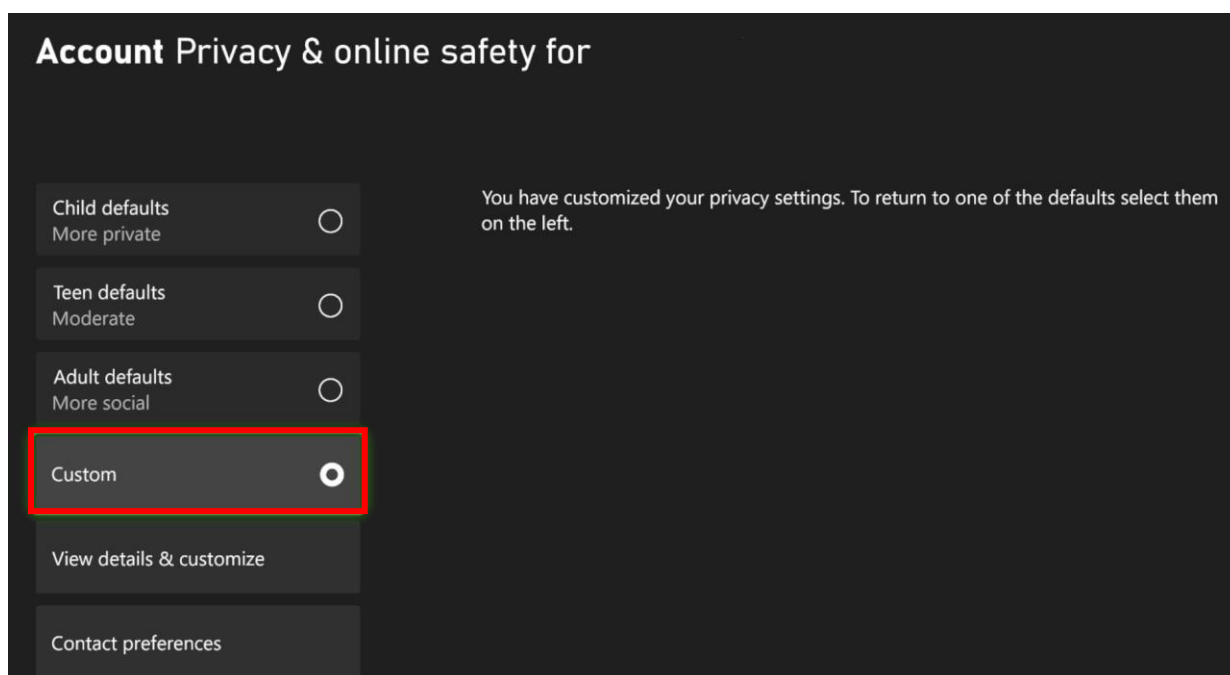

To start, open up your settings menu by double-tapping the  button, then use the right bumper to move to the “Profile & System” Tab. Use the left stick and move down to the gear icon/Settings and Press A. Then use the left stick to move the “Account” tab to access your settings. Select the “Linked social accounts,” “Privacy & online safety,” “Family settings,” or Content restrictions” to make changes to your settings.

Xbox is a video gaming brand created and owned by Microsoft. The brand consists of five video game consoles, as well as applications (games), streaming services, an online service by the name of Xbox network, and the development arm by the name of Xbox Game Studios.

## Privacy & online safety

Once you navigate to the “Xbox Privacy” screen, you can choose between four options; “Child defaults,” “Teen defaults,” “Adult defaults,” and “Custom.” If you choose “Custom,” you will need to change several settings outlined in the next few pages of this document.

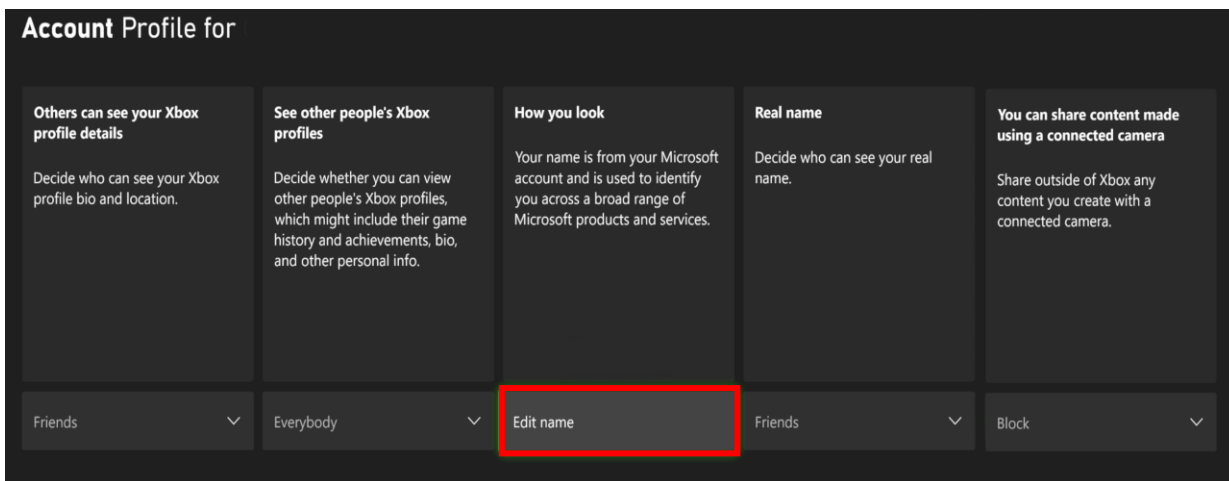

## Xbox Privacy

If you decided to customize your settings vs choosing the default options there are several sub-options to review. The first is the “Online Status & History” where you can change how others see you online. You have the option to choose “Everybody,” “Friends,” or “Block.”

The second is the account “profile” where you can change additionally information about your profile and who can see it.

## Xbox Privacy

More options are the account “Friends & Club,” “Communication and Multiplayer” and “Gaming Content” settings. Read each section and decide to select “Allow” or “Block;” “Everyone,” “Friends,” or “Block” based upon the dropdown menu options.
