

# PASSWORD MANAGERS

- **Do** continue to change your passwords even when using a password manager. They are not failsafe's.
- **Do** use unique, hard-to-guess passwords that include a combination of letters, numbers, and symbols.
- **Do** ensure you don't tell anyone the password to your password manager.
- **Do** watch out for "phishing" scams.
- **Don't** use Password Apps on public wifi. Always make sure you are connected through a secure internet connection.
- **Don't** store anything additional inside the Password Manager you wouldn't want leaked.
- **Don't** use the same password across multiple accounts.

## Top 3 Password Managers

- **Keeper:** Keeper is a password manager created by Keeper Security, Inc. that allows users to store online login credentials, documents and images, and other sensitive information in an encrypted digital web vault. Users can also store two-factor authentication codes.
- **1Password:** 1Password is a password manager developed by AgileBits Inc. It provides a place for users to store various passwords, software licenses, and other sensitive information in a virtual vault that is locked with a PBKDF2-guarded master password. By default, the user's encrypted vault is hosted on AgileBits' servers for a monthly fee.
- **BitWarden:** The platform offers a variety of client applications including a web interface, desktop applications, browser extensions, mobile apps, and a command-line interface. Client functionalities include 2FA login, passwordless login, biometric unlock, random password generator, password strength testing tool, login/form/app autofill, syncing across unlimited platforms and devices, storing unlimited number of items, sharing credentials, and storing variety of information including credit cards.

Password Managers provide a safer alternative to leaving your passwords on your computer unguarded or keeping them written down on a piece of paper at your desk. The best passwords are usually phrases, or random combined words, and it's recommended you check the strength at [passwordmonster.com](https://passwordmonster.com)
