

Zoosk Privacy Settings

Zoosk does not have many privacy settings. To access your account privacy settings, click your name (or “A Zoosk Member”) on the top right side of the screen. In the drop down menu, click “Settings”

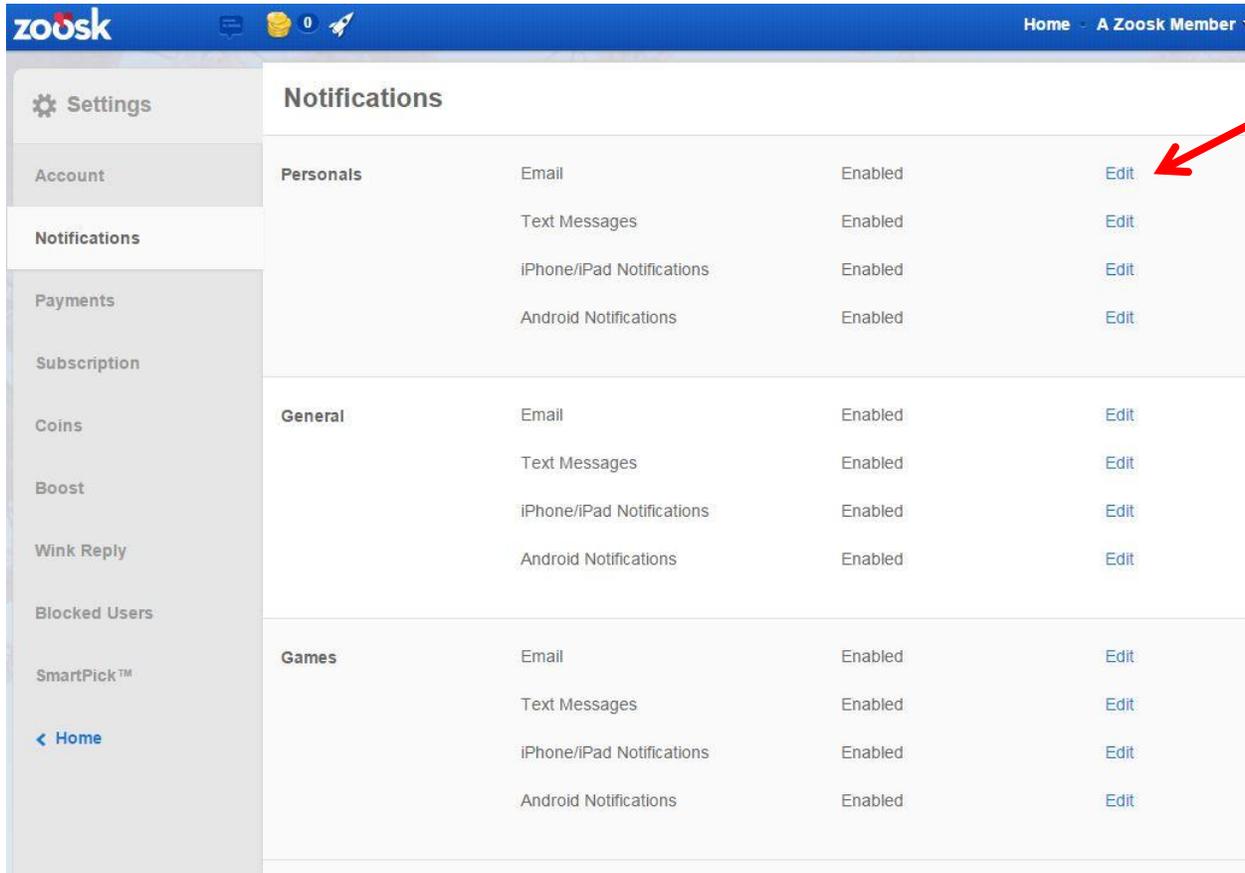

Under the “Account” tab, you can change your name, email address, password, cell phone number, and account status. If you would like to deactivate your account, you will do it from this page.

Under the “Notifications” tab you can select what you would like to receive notifications about and in what way you would like to receive the notifications (email, text message, iOS notifications, Android notifications).

Category	Notification Type	Status	Action
Personals	Email	Enabled	Edit
	Text Messages	Enabled	Edit
	iPhone/iPad Notifications	Enabled	Edit
	Android Notifications	Enabled	Edit
General	Email	Enabled	Edit
	Text Messages	Enabled	Edit
	iPhone/iPad Notifications	Enabled	Edit
	Android Notifications	Enabled	Edit
Games	Email	Enabled	Edit
	Text Messages	Enabled	Edit
	iPhone/iPad Notifications	Enabled	Edit
	Android Notifications	Enabled	Edit

Zoosk

Under “Blocked Users” you can view who you have blocked. This feature allows you to prevent individuals that you do not feel comfortable with from viewing your profile and communicating with you.

The screenshot shows the Zoosk settings interface. On the left is a vertical sidebar with the following menu items: Settings (with a gear icon), Account, Notifications, Payments, Subscription, Coins, Boost, Wink Reply, Blocked Users (highlighted in white), and SmartPick™. The main content area is titled "Blocked Users" and contains the text: "You haven't blocked anyone yet." followed by "To block a member, visit his profile and Report/Block." A red arrow points to the end of the second line of text.
